PROFESSIONAL SUMMARY

Leverage 8 years of experience as a Tech Lead in IT and banking-domain applications, combining technical expertise with strong analytical and problem-solving skills. Hands-on knowledge of Excel, Power Query, Power BI, SQL, and Python for data cleaning, analysis, and visualization. Seeking Data Analyst / Data Analytics opportunities to apply technical and analytical experience to generate actionable business insights and support data-driven decisions.

SKILLS

Data Analytics & BI: Microsoft Excel, Power Query, Power BI, SQL, Python, Data Cleaning, Data Analysis, Data Visualization, Pivot Tables, Power BI Dashboards

Programming Languages: Python, PL/SQL

Databases: MySQL, Oracle 11g

Development & Testing Tools: VS Code

Professional Skills: Analytical Thinking, Problem Solving, Stakeholder Collaboration, Team Leadership, Mentoring, Troubleshooting, Communication, Adaptability

DATA ANALYTICS PROJECTS

Music & Streaming Data Analytics:

https://github.com/Priyanka-R28/DA_EXCEL_POWER_BI/tree/main/DAANB19_T1_GROUP_PROJECT

Objective: Analyze music streaming data to identify top-performing artists, songs, and platforms and uncover key streaming trends.

Tools & Technologies: Excel, Power Query, Power BI

Role: Team Lead – coordinated project activities, guided the team, reviewed data analysis, and contributed to dashboard development and insights.

Methodology: Performed data cleaning, missing-value handling, duplicate detection, data transformation, and exploratory analysis. Developed interactive Power BI dashboards to analyze artist performance, streaming trends, platform performance, and audience engagement.

Key Outcomes: Identified top-performing artists and songs, compared platform-wise streaming performance, and presented actionable insights through interactive dashboards.

Clinical Appointment Data Analysis:

https://github.com/Priyanka-R28/DA_EXCEL_POWER_BI/tree/main/Mini_Project

Objective: Analyze clinical appointment data to identify patient visit trends, department-wise records, gender distribution, appointment patterns, billing performance, and follow-up status.

Tools & Technologies: Excel, Power Query, Power BI

Role: Data Analyst – performed data cleaning, transformation, exploratory analysis, dashboard development, and interpretation of key business insights.

Methodology: Cleaned and transformed data, handled missing values and duplicates, and developed Power BI reports

Key Outcomes: Identified appointment and patient visit patterns, and generated insights on billing and follow-ups through interactive Power BI reports to support effective appointment management.

CERTIFICATIONS

- AI-Driven Data Analytics Certification – Entri Elevate, Entri Learning Platform ***2026***
  Key Learning: Training in **Excel, Power Query, Power BI, SQL, Python, data cleaning, data visualization, and exploratory data analysis**, with hands-on analytics projects.
- Full Stack Development Certification – NIIT, Dindigul ***2017***
  Key Learning: Training in **Java/J2EE, web technologies, database management, and full-stack application development**.

PROFESSIONAL EXPERIENCE

Technical Lead | Inspirisys Solutions Pvt. Ltd. | Chennai **June 2025 – Present**
Leading technical delivery and Agile sprints, coordinating with stakeholders, handling production support, and mentoring 15+ developers. Responsible for technical guidance, code reviews, issue resolution, and timely project delivery.

Senior Software Engineer | Inspirisys Solutions Pvt. Ltd. | Chennai **June 2021 – May 2025**
Developed and supported 10+ government banking modules, focusing on Java development, web services, performance optimization, production support, and team coordination.

Software Engineer | Inspirisys Solutions Pvt. Ltd. | Chennai **June 2018 – May 2021**
Developed and supported banking applications using Java, JSP, Servlets, and Oracle, contributing to application enhancements, issue resolution, and end-to-end delivery.

KEY PROJECTS

Government Business Module (GBM) | iGBM | iGBM Lite

- Worked on banking applications for clients including IDBI, AXIS, IOB, UCO, BOB, PNB and UBI, supporting PPF and other government business services. Developed and supported banking features, web services, and REST/SOAP integrations.
- Worked with Java, Spring Boot, Spring MVC, Microservices, REST APIs, Oracle PL/SQL and ReactJS. Implemented multi-threading, AES encryption/decryption and digital signatures for performance, concurrency and secure data processing. Provided application support, issue resolution and production/UAT implementation across banking modules.

EDUCATION

Bachelors of Engineering (CSE) - PACET, Pollachi. Anna University,Chennai ***2012-2016***

Higher Secondary School Certificate - Vivekananda Vidyalaya Matric Hr.Sec.School, Palani ***2011-2012***

Secondary School Leaving Certificate - Vivekananda Vidyalaya Matric Hr.Sec.School, Palani ***2009-2010***
